

BASIC INTEGRATION BETWEEN AUTODESK BIM 360 GLUE, AND NAVISWORKS

presented by Robert Maxfield, Okland Construction

DATE: Thursday, November 17

PLACE: Utah Career Center, 640 N. Billy Mitchell Road, Salt Lake City, UT 84116

TIME: Noon – 1:00pm

COST: Free

OTHER: Lunch will be served

REGISTRATION DEADLINE: Monday, November 14

EDUCATION CREDIT VALUE: Contractors & Plumbers - One Professional Credit Hour

About the Course

Understanding and utilizing multiple data platforms is a key to success. This class will take a beginner's level overall look at Autodesk BIM 360 glue, and the tools offered. Additionally, this course will briefly discuss how to use, view and manipulate Glue models using Navisworks. Finally, uploading and file sharing features of BIM 360 Glue will be discussed.

Objectives:

- How to upload and download models.
- Tools and features in Autodesk BIM 360 Glue.
- Provide an overview of how to open a Glue model in Navisworks, and manipulate that model.
- Benefits of using Glue and Navisworks together.

About Robert Maxfield

Robert Maxfield is an Integrated Construction Manager with Okland Construction Company, Inc., located in Salt Lake City, Utah. Robert received his Associate of Architectural Technology Degree and Bachelor of Construction Management Degree (with a focus in Business and Architecture) from Brigham Young University, Idaho; and his MBA from Utah State University. Having worked at an architecture firm, structural engineering firm, and various construction companies, Robert has become well rounded in the field of Building Information Modeling (BIM).

Robert loves working with his hands restoring historical objects, and has a passion to push the future by capturing and remembering the past.
